<sup>1</sup> See *Regulations to Improve Administration and Enforcement of Antidumping and Countervailing Duty Laws*, 86 FR 52300, 52316 (September 20, 2021) (*Final Rule*) ("It is our expectation that the *Federal Register* list will include, where appropriate, for each scope application the following data: (1) identification of the AD and/or CVD orders at issue; (2) a concise public summary of the product's description, including the physical characteristics (including chemical, dimensional and technical characteristics) of the product; (3) the country(ies) where the product is produced and the country from where the product is exported; (4) the full name of the applicant; and (5) the date that the scope application was filed with Commerce.")

<sup>2</sup> The product covered by this scope application is standard steel welded reinforcement wire mesh comprised of square and rectangular grids of uniformly spaced steel wires, either smooth or deformed, that are welded at all intersections, in the following style: 6X6 W1.4/W1.4 or D1.4/D1.4 (*i.e.*, 10 gauge), in roll form with a nominal width of 8 feet and a nominal length of 131 feet. The 10-gauge wire mesh that is the subject of this scope is classifiable under HTSUS 7314.20.0000 and 7314.39.0000.

<sup>3</sup> UTEX fittings are custom forged fittings used in a specific system for the drilling and extraction of oil and natural gas. The fittings that are included in this scope application are used in UTEX's LargeBore system and include cross-box fittings, expansion spool fittings, flange adapter assembly, flange adapter fittings, collar fittings, threaded elbow fittings, union fittings and swivel fittings. The UTEX fittings subject to this scope application are classified under HTSUS 7307.92.3030, 7307.92.9000 and 7307.99.5060.

<sup>4</sup> Monopiles are hollow cylindrical shapes made from steel used to form a foundation on which a complete offshore wind turbine sits. the majority of modern monopiles range from 1,000 to 2,500 tons. Monopiles are welded together at the fabrication point and shipped to the installation point in one piece ranging from 80 to 130 meters in length. Monopiles designed for use with a transition piece may be on average approximately 20 meters shorter. Monopiles are classified under HTSUS 7308.20.0020.

<sup>5</sup> Solar modules manufactured in Cambodia from solar cells manufactured in Cambodia using Chinese unfinished silicon wafers. The merchandise subject to this scope application is classified under HTSUS number 8541.43.00.

### Notification to Interested Parties

This list of scope ruling applications is not an identification of scope inquiries that have been initiated. In accordance with 19 CFR 351.225(d)(1), if Commerce has not rejected a scope ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day – day 31.<sup>6</sup> Commerce’s practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.<sup>7</sup> Accordingly, if the 30<sup>th</sup> day after the filing of the application falls on a non-business day, the next business day will be considered the “updated” 30<sup>th</sup> day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the “updated” 30<sup>th</sup> day.<sup>8</sup>

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

---

<sup>6</sup> In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

<sup>7</sup> See *Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

<sup>8</sup> This structure maintains the intent of the applicable regulation, 19 CFR 351.225(d)(1), to allow day 30 and day 31 to be separate business days.

For further information on procedures for filing information with Commerce through ACCESS and participating in scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at [https://access.trade.gov/help/Scope\\_Ruling\\_Guidance.pdf](https://access.trade.gov/help/Scope_Ruling_Guidance.pdf). Interested parties, apart from the scope ruling applicant, who wish to participate in a scope inquiry and be added to the public service list for that segment of the proceeding must file an entry of appearance in accordance with 19 CFR 351.103(d)(1) and 19 CFR 351.225(n)(4). Interested parties are advised to refer to the case segment in ACCESS as well as 19 CFR 351.225(f) for further information on the scope inquiry procedures, including the timelines for the submission of comments.

Please note that this notice of scope ruling applications filed in AD and CVD proceedings may be published before any potential initiation, or after the initiation, of a given scope inquiry based on a scope ruling application identified in this notice. Therefore, please refer to the case segment on ACCESS to determine whether a scope ruling application has been accepted or rejected and whether a scope inquiry has been initiated.

Interested parties who wish to be served scope ruling applications for a particular AD or CVD order may file a request to be included on the annual inquiry service list during the anniversary month of the publication of the AD or CVD order in accordance with 19 CFR 351.225(n) and Commerce's procedures.<sup>9</sup>

Interested parties are invited to comment on the completeness of this monthly list of scope ruling applications received by Commerce. Any comments should be submitted to James Maeder, Deputy Assistant Secretary for AD/CVD Operations, Enforcement and Compliance, International Trade Administration, via email to [CommerceCLU@trade.gov](mailto:CommerceCLU@trade.gov).

This notice of scope ruling applications filed in AD and CVD proceedings is published in accordance with 19 CFR 351.225(d)(3).
